6 inch rubber wheel

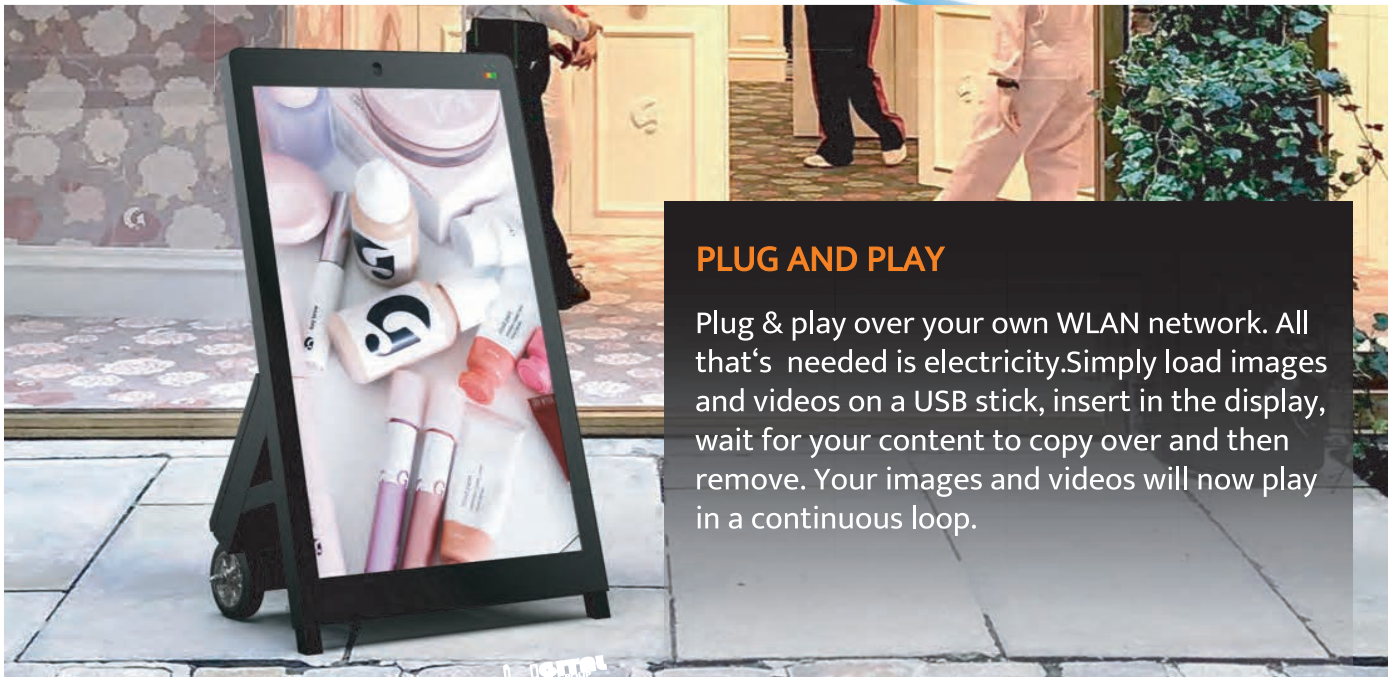

BATTERY POWERED

The integrated lithium-polymer battery revolutionizes the way digital signage is used. Our industrial grade battery solution gives you over 12 hours running time.

EASY TO USE

The i-Frame Poster combines a powerfully illuminated LCD display with a web based software in a single frame that can be individually customized - making digital signage easier and more flexible than ever before.

PLUG AND PLAY

Plug & play over your own WLAN network. All that's needed is electricity. Simply load images and videos on a USB stick, insert in the display, wait for your content to copy over and then remove. Your images and videos will now play in a continuous loop.

IP55 Rated Weatherproof Enclosure

The outer enclosure has an IP55 rating which means it keeps out all airborne elements, dust and other particles as well as being protected from any wet weather conditions.

IP55 Rated Enclosure

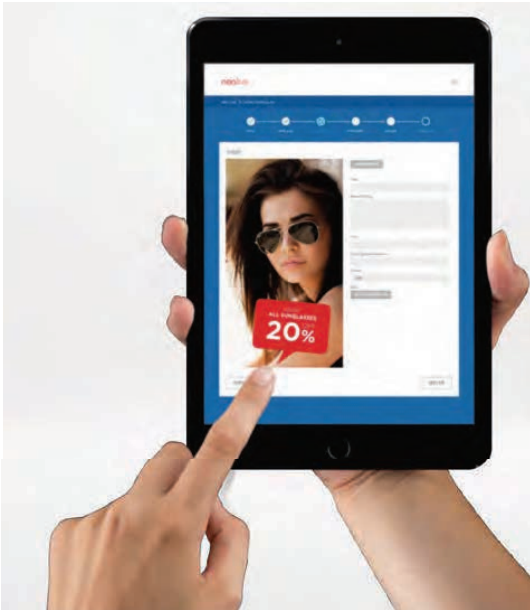

EASY TO GO

The i-Frame Poster can be moved easily by one person. The Posters dazzling pictures and videos ensure a contemporary, modern customer approach.

Local, regional, national

With Individual or multiple locations can be controlled and administered. In this way, targeted campaigns can be run or regional conditions can be responded to, e.g., depending on the current weather.
